EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Ronald M. Anderson on August 15, 2006.

In claim 1, line 16, the Attorney agreed to change the term "stored" to "store".

Allowable Subject Matter

2. Claims 1, 3-16 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The prior art taken singly or in combination does not teach or suggest, a programmable graphics pipeline for processing and rendering variable length multimedia, wherein different types of multimedia are divided into partitions of differing lengths, among other things, comprising "an enhanced texture cache... configured to store multiple partitions that are of differing lengths, to enable storage of the different types of multimedia data."

The closest prior art, Van Hook et al. and Ezer et al. teach a method of processing multimedia, comprising an instruction cache, a register file, a vector function unit.

However, the cited references fail to teach the limitations of the enhanced texture cache mentioned above.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hau H. Nguyen whose telephone number is: 571-272-7787. The examiner can normally be reached on MON-FRI from 8:30-5:30.
